Environmental policy Metrostav CZ s.r.o.

Metrostav CZ s.r.o. is a universal construction company implementing demanding construction works. Our integrated management system is configured so we can achieve the goals and standards to which we have committed ourselves as a company in the areas of environmental protection and sustainability.

Our main environmental goal is to be perceived by our stakeholders as a resilient company that behaves according to the principles of sustainable construction, with environmental protection as a priority.

In view of our main objective and in accordance with the requirements of ČSN EN ISO 14 001, Regulation (EC) No 1221/2009 of the European Parliament and of the Council EMAS and the objectives of the Green Deal for Europe, the top management is committed to:

- Compliance with the applicable provisions of legislation and other binding obligations related to environmental protection.
- Meeting the needs and expectations of our stakeholders and supporting our business partners in this endeavour.
- Continuously improving the environmental management system to enhance environmental performance.
- Developing environmental objectives and plans in line with the Sustainable Development Goals.
- Protecting the environment, with an emphasis on pollution prevention.
- Minimizing negative impacts on the quality of the landscape, soil, water and biodiversity of the natural environment.
- Promoting the reduction of climate change related greenhouse gas emissions from construction projects, road vehicles and stationary sources.
- Promoting the circular economy and the use of sustainable materials.
- Paying particular attention to construction projects that are planned and tendered in line with the objectives of the Green Deal.
- Continuously educating employees on environmental protection and sustainability.
- Working with business partners to promote sustainable development principles, and encourage collaboration with innovative organisations and companies.
